

There's no need to hide a key or rely on a neighbor to be home when an emergency strikes. A hidden key can be found by a burglar. And, your neighbor isn't home every hour of the day. The Residential 1650 is always available once installed.

The 1650 Residential KNOX-BOX is ideal for individuals:

- With a history of medical problems
- Recuperating from a hospital stay
- Living alone
- Using an electronic calling or medical alert service

To learn more about the Knox Residential Program, contact your responding department:

### About the Knox Company

Since 1975, Knox has been manufacturing high security key boxes, key vaults, armored cabinets, key switches, padlocks, master key retention devices and locking FDC plugs and caps. This proven rapid entry system reduces response times, property damages and the liability for lost keys. More than 11,000 responding agencies and the communities they service depend on Knox products and services.

# 911 ACCESS

## How will they enter your home when you call for help?

**KNOX**  
Serving Emergency Access Needs Since 1975

## **The 1650 Residential KNOX-BOX®**

***Peace of mind knowing  
help is only a call away***

The Residential KNOX-BOX® is a high security key safe that only local emergency responders can access.

With a Residential KNOX-BOX installed, emergency responders can respond quickly, without forcing entry. They simply remove your entrance key stored inside, provide medical assistance and re-lock your door when they leave.

## **Residential KNOX-BOX® One time purchase – no monthly monitoring fee**

- Key locked in KNOX-BOX; not hidden for burglar to find
- Key readily available to responders; no relying on neighbor to be home to let responders inside
- Door or windows not damaged by responders trying to access your home
- Security a top priority – KNOX-BOX is UL listed against physical attack

*Elderly parents enjoy independent living and their children can rest assured that emergency personnel can quickly and safely respond to a 911 call using the KNOX-BOX® Rapid Access System.*

## **Be Prepared for an Emergency**

Help your local emergency responders' help you by installing a 1650 Residential Knox-Box to reduce the likelihood of forced entry damage and improve the responders' response times. When minutes count, don't leave an emergency responder locked out.

*Residents provide an entrance key and optional medical alert card to the responding department and they are both secured in the Knox-Box®*
